

## Breeding - Passing on the best

**Supplemented with L-carnitine:** boosts the stallion's fertility and the foal's development.

**Supplemented with Omega 3 to meet the optimal Omega 6/Omega 3 ratio:** encourages reproduction through its effect on gestation and the foal's development.

**Supplemented with pre-biotics MOS:** bio-regulators of intestinal flora that help protect the digestive transit, they also have an effect on the immune system.
